

SECTION C - EMPLOYMENT AND BUSINESS

28 SETS OF COMMENTS MADE

C24 - Would be handy to have local shop/post office

C24 = None

A shop would be ideal - community if necessary

Re C19: Retired but work Sundays 6 miles each way.

More houses means more cars, maybe 2+ per house and there's no facilities. The pub and shop have already been changed to houses.

Re C24: No development.

C23 IT DEPENDS ON WHAT CONSTITUTES 'COMMUTING'! I'M ASSUMING PEOPLE WOULD STILL BE AT HOME IN THE EVENINGS/WEEKENDS AND CONSIDER THEMSELVES PART OF A COMMUNITY / C24 I'M SORRY, I REALLY DON'T KNOW.

C24 NO DEVELOPMENT

TO ATTRACT ANY NEW BUSINESS WE NEED STATE OF THE ART BROADBAND AND MOBILE COVERAGE, AT THE MOMENT BOTH ARE POOR. IMPROVEMENTS IN PUBLIC TRANSPORTS ARE NEEDED ALSO.

C18 to 21 not applicable

C19 – varies / C23/C24 - no views

C19 - not applicable - not major residence

Holwell needs to grow or it will shrink!

C19 - average of 50 miles per week

C20 - use car for shopping and leisure etc / C24 limited affordable housing

C23 - a mixture

C19 - travel varies

C23 Would like Holwell to remain a mixed community with farms etc and small local businesses or self employed

Query re bus in C20 / C21 my work is voluntary on a monthly bus

I would love if traffic could be guided around Holwell at busy times!

Re C21: Charity sector.

C24 Answered no to all questions and added leave it as it is

C20 daily travel but not work related travel / Professionals before retirement

C24 - Pub and village shop

C19/2- retired - travel by car when necessary

**C19 Used to travel 26 miles per day from this village / C21 Used to be in horticulture for 15 years from this village (now family administrator - granny) / C24 Would like to have proper old fashioned type "council houses" for people to move into, bring up a family and save to buy another house so leave "council house" for another family to do same
No more Right to Buy houses and government selling houses cheaply**

Housing must be available to young people who wish to stay in the village. Houses are too expensive - we need flats and affordable houses.
