

Communication/broadband

- 1 Broadband ok now
- 2 It's not fair that a few homes in our village are excluded from access to Superfast . Somethings needs to be done to achieve parity.
- 3 OK now
- 4 Superfast Broadband required urgently – falling behind other local villages
- 5 Faster broadband
- 6 Broadband now better but phone signal still bad
- 7 All villagers should not be disadvantaged and be given optical broadband
- 8 Fibre optic available – great – but speeds still stabilising
- 9 Broadband is slow
- 10 Is getting better. Schoolchildren and businesses need a secure, fast broadband connection throughout the village
- 11 Mobile signal poor. Broadband poor at times despite recent improvements
- 12 Broadband providers needs to realise that just because you live in a village you (still) want access to internet
- 13 Slowly arriving
- 14 Has recently improved
- 15 Superfast Broadband – Holwell falling behind many other villages
- 16 Thanks to the efforts of one person we now have superfast broadband in the main part of the village. The old PC did nothing – the new should now do something for the remainder of the community
- 17 Extension of fast broadband to cover larger part of Holwell. Important for any business expansion
- 18 Some issues still with Superfast Broadband but thanks to those who pressed for it. Important to future viability of Holwell
- 19 Don't have any computers
- 20 Mobile phone and broadband coverage is poor, needs to be expanded
- 21 Already promised
- 22 Broadband developments – excellent progress, beneficial to all
- 23 Broadband in the Borough area is lamentable
- 24 12 houses in The Borough/Barnes Cross and Buckshaw missed out on the recent high speed broadband improvements.
This should be rectified asap
- 25 Broadband has meant much greater opportunities for those working from home. Unfortunately the existing broadband has now slowed down and BT should explain why
- 26 Superfast is needed
- 27 OK
- 28 Broadband not good – very slow
- 29 Greater speeds especially for businesses as very frustrating at present
- 30 Definitely to be improved
